An almost all white flat refresh everyone's feeling, is a good place for relaxing among the city.

Get use from color, white makes less stress feeling, a studio flat with large window to enhance the space senses and let people enjoying the outdoor environment once get in the flat, seems like interior and exterior is the same area. To keep the communication with outdoor environment, no window curtain is used, only the toilet and bathroom use electric glass and roller blind to keep the privacy. In order to hold the freeness in the flat, except the walk in closet, there is almost no wall to separate different area, even toilet and bathroom is use glass to divide.

An open kitchen with bar table can uphold foreign lifestyle atmosphere. A long sofa in the living room is for householder enjoying time with friends. Separating the toilet and bathroom, is aimed to convenience guest and keep the private use of bathroom. The end of the sofa is a good place for householder enjoying healthier breakfast.

An almost white flat with less dividing can increase the freeness atmosphere and enhance the communication of interior and exterior environment.
