我的秘密花園

一個特別的空間設計體驗，業主給了我們一個有滑梯的閣樓空間的想法，我們將這個有趣味的空間簡單大方地實現出來。

這是一個給兩個小女兒遊藝與起居的空間，平時會有許多同年齡的小朋友會一起來玩。

結合通達閣樓的樓梯與滑梯是本空間的設計靈感，結合兒童書櫃與多功能的置物箱成為空間中各種活動的傢具與符合兒童尺度功能性的桌椅。

設計的過程中我們不刻意給予空間太明確的功能性，而是讓未來參與到空間的使用者自己去作定義，讓空間的使用彈性大到最大化。

"my secret garden"

• Welcome to "my secret garden". This is the place for my friends and me to enjoy, learn, play and relax. This is the place I will never feel bore and always looking for somethings interesting...

It is a special spatial design experience, our client gives us an idea of a slide in a penthouse, and we recreate this interesting space in an interesting and simple manner. This is a living space for two young daughters, and lots of time there will be friend and kids come over to enjoy the space. The stair and slide to the penthouse the soul of this spatial design, and the integration of bookshelf and multiuse storage box become the furniture for different event. We do not give too much clear definition to the space; instead, we project the most flexibility and imagination to the user who is going to participate in the space in the daily future.
