陽光與木質堆砌生活大宅

在喧囂的城市裡，擁有自己一處陽光灑進來的生活大宅。
把公領域及私領域重新分配並劃分，讓情感交流與私密生活充滿靈動性。

把整片迎光落地窗的全開放式場域留給家人共同交流生活的區域-書房、客廳、餐廳、廚房連成一線，開闊大器的格局配置，一面迎進自然陽光及視野的遼闊綠景，一面是溫潤質樸的實木材質，串起自然的軌跡，打造出寬闊大器與溫馨感的沉穩空間調性。

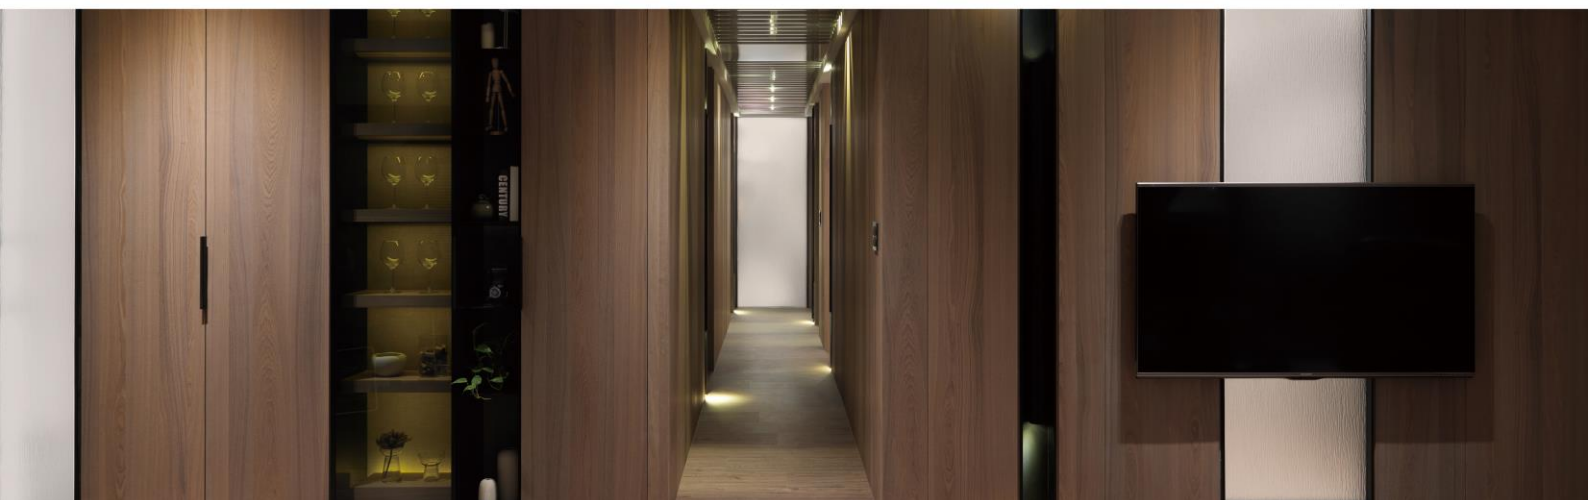

We use calm and mature tone in master bedroom. The golden ratio split stone lines shows gentle sense of elegance. Specially designed custom made master bath vanity and mirror brings the occupants a sense of ease and comfort. To create more light, a custom made tubular lamp post reflects indirect light into the space. Sitting by the window, slowly feel the passage of time and light following the shadow dynamically circulate. The bedroom allows the resident to pause and enjoy life. Natural materials are again used, and the overall feeling is one of peace and stability. We use brown color in grandparents' room. It provides a cozy and mellow atmosphere. This is an area of escape and calm.

通過充滿飯店氛圍的廊道底端即是私密的個人空間，特殊設計訂製的管狀燈柱反射出間接光源，現宛如藝術空間的感受。坐在窗邊感受時光緩緩的流逝、光影的流轉與消長，真正自然與自在的享受生活。空間的存在，以人為主的精神，顯現出個人品味與生活態度、構成寧靜與安定的空間氛圍。書房則以天然石材背牆搭配鐵件，形塑出自然的氛圍，

Sunshine and wood combine in a beautiful mansion

In a hustle and busy city, find solace through sunshine. This design integrates the public and private through a clever flow between the living room and the personal living spaces. The main room is bathed in welcoming sunshine due to an open space with one side of windows from ceiling to the ground. The other side uses warm, urban wood materials in contrast. Together, this results in a space conducive for dining, studying, and living. Family have an unlimited area for communicating and dwelling. Sunshine links with comfort to create a unique living space.
