CS-F-20-木門咖啡

創造在餐廳內卻能夠擁有如同享受戶外用餐般的恬適空間，是本設計期望達成的效果。在設計概念上，以「自然」、「舒適」為主軸，運用切割天窗引入光線及富含生命力的植生牆為主要設計元素，藉此形塑木門咖啡的風格意象。

垂直軸線的天窗，引入自然光線，大量減少人工照明，落實了環保節能的永續精神。側牆挑高的植栽牆面緊鄰用餐區域，自然採光讓植栽在溫煦的陽光下，充分進行光合作用。白天坐在室內也能享受日光帶來的溫暖，此時，人與植物同受天光浸潤。

陽光可以讓空氣中的水分散射與折射出天空中繽紛的色彩，為了表達這樣的意念，在天、壁處運用大量的多彩實木門板，經過繁複排列組合後，營造出空間無限延伸的奇幻感受

CS-F-20- Wooden Door Cafe

The intention of the design is to create a comfortable and outdoor-like space inside of the restaurant .

The purpose behind this concept is to create an environment that's natural and comfortable.

The design features of the restaurant include the glass sunroof and the plant wall. The glass sunroof is cut into different shapes and colors to lead the sunlight in, and the plant wall has a rich vitality that helps create the natural atmosphere of the Wooden Door Cafe.

The vertical axis of the skylight brings in a lot of natural lighting and reduces a lot of artificial lighting. This aligns with the restaurant' s spirit of environmental protection and energy conservation.

The high plant wall is close to the dining area, and the natural light makes the plants reach photosynthesis fully in the warm sunshine.

Sitting in the room during the day, you can also enjoy the warmth of the sun at the same time as the plants.

The sun can let the water in the air scatter and reflect the splendid colors in the sky.

Reflecting this idea, the ceiling is covered with many colorful wooden door panels. Using a combination of complex arrangements, they create a an optical illusion of the space extending infinitely.
