## RS-SH-37-Multi-function with Balance

在這個僅有九坪大的單身住宅單元，我們嘗試將空間由垂直向拉伸，並將機能重新定義整合，創造小空間的豐富機能及視覺層次。經由精巧的設計與尺度安排，客餐廳結合沙發區與提供用餐及工作的高吧台，再以地坪材質交接暗示不同空間的界線與層次感。架高床鋪下方留出的空間規劃為儲藏室及更衣室，解決收納空間不足的問題，並與廁所隔間牆收整為平面，由淺色系木紋搭配深色壁面及鏡子的反射，創造出厚重與輕盈相互揉合的對比。

## RS-SH-37-Multi-function with Balance

In a small space, the challenge is always to make the space both functional as well as comfortable and livable. Our space integrates the original two indoor heights (3.6m & 4.2) to yield a new, multi-layered design, which encompasses a spacious open area. The extended wooded corridor smartly incorporates a series of functions, and the rectangular structures facilitate a living area that allows for a variety of uses.
