Danny Cheng Interiors Limited
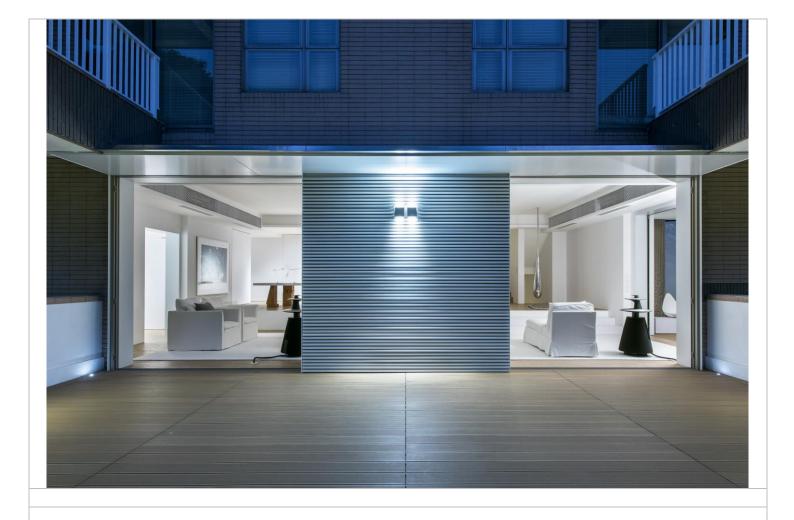

主持設計師 Chief Designer	鄭炳坤 Danny Cheng

RS-M-37-翠巒	RS-M-37- Green Crest
房子擁有先天優勢，既在地下層亦同時在一樓均有連接室外的空間，設計以白色為主體；大胆又細緻地運用，不僅展現了其脆弱與純潔之美，更煥發了其現代、簡潔恒久一面。 室內連同室外面積約 6000 平方呎 (557 平方米)，白色為主的基調更令空間顯得廣闊通透，再以黑、灰、藍加以點綴，令純白不蒼白、單色不呆板。如此這般，憑著千變萬化地 "激活" 與 "燃燒" 白色，打造出一家充滿個性、趣味和玩味的現代居所。 客廳 Living room - 最惹眼的莫過於現代感十足的藝術裝置，金屬材質與純白基調產生了碰撞與對比，另一方面，"水滴" 的藝術品連通了木色高台與白色台階，令兩種中性顏色 "動" 了起來。 沙發 Sofa - 客廳之中，最富巧思的恐怕便是這一組沙發。除了同為冷色調與地面、牆面相呼應；不規則造型還柔和了建築線條所帶來的剛硬與冰冷。 偏廳 - 粗看之下客廳皆為白色，可細查起來，其實層次分明，地毯是淺灰色，磚面、抱枕則是深灰色，另有黑色元素點綴其中，不僅令白色之家有了生機與活力，更增加了空間的層次感和縱深感。 車庫 Garage - 在尋常人家，車庫恐怕實用性大於觀賞性；在這裡，車庫卻成了精緻的展覽廳；乃至成為偏廳不可或缺的一景。車庫和偏廳僅以玻璃隔開，讓心愛的汽車頓變成展覽品，而車的金屬質地本來就與客廳風格相統一，流線型外觀更為偏廳平添一分率性與動感。 浴室 Bathroom - 顏色運用在浴室裡，又發生了變化 -- 純白色浴缸配上大理石牆面，在增加了高級感的同時，還使得空間整體家常、恬意了起來。 後院 Backyard - 如果說室內的關鍵詞是 "現代感" ，那麼室外的關鍵詞便是 "大自然" 。淺色木地板與細紋外牆交相呼應；桌椅、裝飾則都是飽和度較低的淺色，不僅勾連了室內、室外，更與大面積普照的陽光融為一體。	The flat has its natural advantages as both the ground floor and the first floor can be connected to the outside. Pure white is employed as the major tone and is manipulated in a bold and meticulous way, which not only unfolded its delicateness and pure beauty, but also presented a sense of modern, simplicity and permanence. The entire area (inside and outside) is around 6000 square feet (557m2) The pure white style greatly enhances the overall spaciousness and sense of transparency. Black, grey and blue are skillfully added to avoid dullness and paleness. Triggering and utilizing the white color various ways，the designer created a distinct, fascinating and charming modern dwelling. Living room - The contemporary artistic ornaments made by metal are most eye-catching as it created a sharp contrast with the pure white style. On the other hand, the 'water drop' artwork interestingly linked the wooden platform with the white step, adding some kind of 'movement' to the two neutral colors. Sofa – The most ingenious element in the living room goes to the sofa set. The cold tone matches perfectly with the floor and the wall, while its irregular shape has softened the hardness and coldness coming from the architectural structure. The side hall – The living room is all white at a glance. However, if one takes a close look at it, the layers are evident. Together with some black elements, the light grey carpet, dark grey tiles and cushions not only add liveliness and vitality to the white color, but also significantly increase the sense of layer and depth. Garage – A garage is normally more practical than ornamental.
