設計從一開始就秉承了獨特的設計語言，從專案本身出發，以全新的設計方式創造一個充滿詩意、夢幻的奇異空間。大尺度的畫面平靜的地包裹初入空間的訪客，由看得見的世界，所喚起的感覺和圖像再現生活中可能被掩蓋或忽略的美，使人們以特定的態度或特殊的角度，去重新發現、凝視並感受生活。“感覺”這個看似輕描淡寫、稀鬆平常的詞語實則是貫穿始終的關鍵。傳達的都是一種引起“共鳴”的願望。“共鳴是我探聽這個世界的雷達。”於是，我們在設計中利用玻璃既透明又反射的戲劇化效果，去展現被隱藏的內容；去定格那些短暫的瞬間；去表達那些無言的話語；去精緻地體現出光影的玩味與周邊環境的融洽平衡，使得被拽離日常的訪客仿佛置身一個模糊了三維深度感的空間中，同時動態的畫面又向著時空方向進行四維轉化。在這樣神秘、深邃的地方，日漸洶湧的浮躁與喧囂，連悲傷都不能專心致志的人們，會被輕柔的水緩緩融化。在這裡，能看到光慢慢輕撫著物體，能聽到花漸漸開放的聲音。在這裡，洗滌的不僅僅是人的身體，還有人的心靈！在這裡，你不能做我的詩，但我可以做你的夢。

The design is adhered to unique design language from the beginning. Starting with the project itself, the designers create a poetry, fantastic space by a brand-new design method. In this project, visitors are immersed in the large-scaled peaceful picture, where the senses are awakened by the visible world, and the feelings and images once ignored in life are represented here. It allows people to rediscover and feel life with a specific attitude or a special perspective. The word "feeling", which seems to be understated and ordinary, is the key to the whole design. What it conveyed is a desire to arouse sympathy; since sympathy is the radar people exploring this world. Therefore, a dramatic effect is created by the transparent and reflective glasses, which are used to show the hidden contents; to freeze-frame the moments; to express the wordless feelings; and to show the balance between light and shadow and surroundings. It makes the visitors away from the routine life and exposed in a space where three-dimensional depth is blurred, while the dynamic picture is transformed into four-dimensional direction of time and space. In such a mysterious and profound place, people who are increasingly restless, even those who cannot be sorrowful intently, will be slowly melted by the gentle water. Here, one can see the light slowly touching everything and hear the sound of the flowers gradually blooming. Here, what it purifies is not only the human body, but also the mind! Here, you're not my poem, but I can be your dreams.
