玩 一直都是最好的學習方式
透過在家裡不同移動的方式
讓我們用身體經驗感受空間
生活在這空間的人也會激發出更多想像力
原來 在家也可以這麼好玩

我們把睡覺空間放到天空
置入一個斜坡延伸到客廳

將睡眠空間變成一個可移動的櫃體
讓小孩身體感受一個大的遊戲場

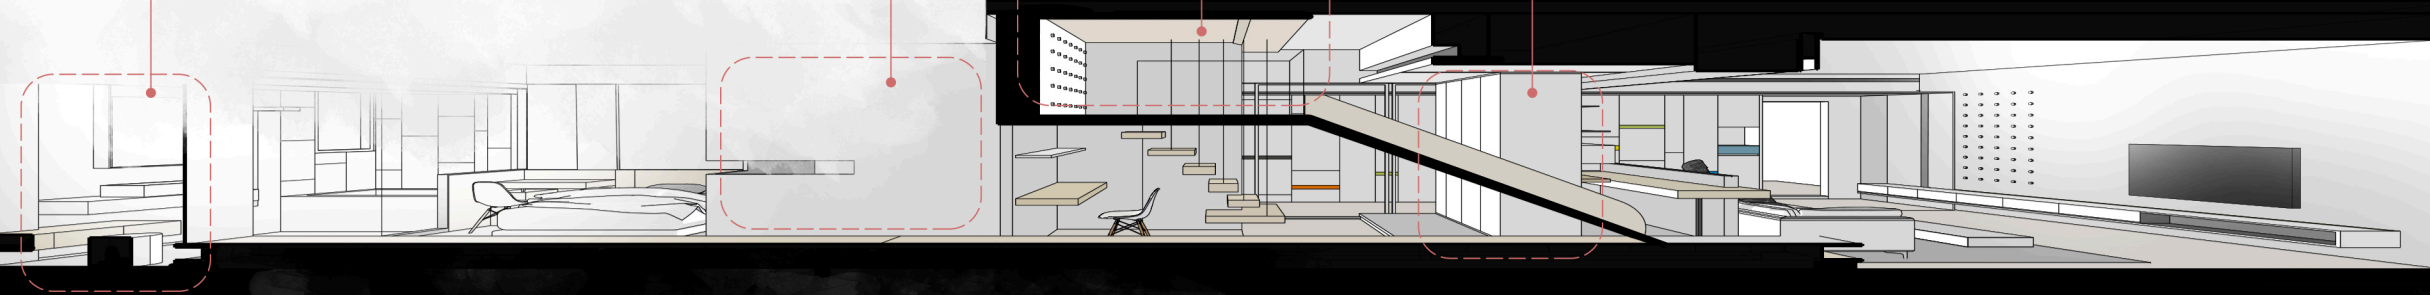

折板鋸滑梯

移動櫃體

玻璃盒子浴室

PLAYGROUND IN THE HOUSE

住宅裡的遊戲場	Playground in the House
<p>這是一個一家三口的家</p> <p>屋主希望他們家可以很有趣讓小孩快樂成長</p> <p>討論中也發現他們家的小朋友很喜歡去公園溜滑梯</p> <p>於是我們就思考為何不能把溜滑梯放進家裡呢？</p> <p>所以設計概念上將小孩房的格局打破</p> <p>我們把睡覺空間放到天空上</p> <p>用折板語彙隱含機翼的意象</p> <p>並且置入一個斜坡延伸到客廳</p> <p>讓小朋友起床上學就可以從溜滑梯滑到客廳</p> <p>屋主說現在小朋友最期待每天早上起床的那一刻</p> <p>另外也因為書房空間不會天天使用</p> <p>所以我們將隔間牆變成一個可移動的櫃體</p> <p>當書房沒使用時就可以將櫃子推到一邊</p> <p>讓小孩房變成一個大的遊戲場</p> <p>我們也把樓梯加大加寬</p> <p>階梯也變成是舞台的椅子</p> <p>形成小朋友聚會遊戲的空間</p> <p>玩 一直都是最好的學習方式</p> <p>透過在家裡不同移動的方式</p> <p>讓我們用身體經驗感受空間</p> <p>生活在這空間的人也會激發出更多想像力</p> <p>原來 在家也可以這麼好玩</p>	<p>This is a home for a family of three.</p> <p>The owner hopes their house to be fun for the child to grow up happily.</p> <p>In the discussion, we found their child likes to play on the slide in the park.</p> <p>Therefore, why not put the slide in the house?</p> <p>In the design concept, the layout of the children's room is removed.</p> <p>The sleeping space is arranged up above through the image of airplane wings made of folded plates.</p> <p>A slope is installed to extend to the living room so that the child can slide to the living room when waking up for school that now the child expects the moment of waking up every morning most.</p> <p>Besides, the space for the study room is not used every day, so we make the partition wall a movable cabinet.</p> <p>When the study room is not in use, the cabinet can be moved aside.</p> <p>In this way, the children's room can become a large playground.</p> <p>The staircase is also enlarged and widen, which can turn into the chairs for the stage, and become a space for children to get together and play.</p> <p>Play has always been the best way to learn.</p> <p>Through the different ways of moving at home, we can experience and feel the space through our bodies.</p> <p>People living in the space will be inspired with more imagination.</p> <p>Indeed, a home can be so fun.</p>
