Therefore, in design, we focus the flow on the window side to shape a corridor so that the only sunlight in the space can expand from this corridor.
The book wall is made not to reach the ceiling on purpose.
Also, the slanting style ceiling connects the space to extend the light and sight.

PLAN

這空間位於都市大樓中的二樓
因先天建築造型的關係導致開窗面積很小
加上低樓層光線本來就不充足
所以在設計操作上
我們把動線集中在靠窗那一側
在窗邊塑造出一條光廊
讓空間中僅存的陽光可以從這條廊道漫延出來
刻意不到頂的書牆
加上斜面的造型天花貫穿
把光線及視覺延伸
公共空間以中島為核心
實木的大桌板只用三支鐵件支撐形成一個漂浮感
將私人空間集中在兩側
希望讓公共空間盡量完整方正

光廊	Light Corridor
這空間位於都市大樓中的二樓	The space is located on the second floor of a building in the city.
因先天建築造型的關係導致開窗面積很小	The original style of the construction leads to the small size of the window.
加上低樓層光線本來就不充足	Besides, the light on the lower floor is insufficient.
所以在設計操作上	Therefore, in design, we focus the flow on the window side to shape a corridor
我們把動線集中在靠窗那一側	so that the only sunlight in the space can expand from this corridor.
在窗邊塑造出一條光廊	The book wall is made not to reach the ceiling on purpose.
讓空間中僅存的陽光可以從這條廊道漫延出來	Also, the slanting style ceiling connects the space to extend the light and sight.
刻意不到頂的書牆	
加上斜面的造型天花貫穿	The island serves as the core of the public space.
把光線及視覺延伸	The large wood table is only supported by three iron pieces to form a sense of floating.
公共空間以中島為核心	The private space falls on the two sides.
實木的大桌板只用三支鐵件支撐形成一個漂浮感	On the elevation of each dimension, the different concrete and fictitious
將私人空間集中在兩側	techniques are applied to conceal the doors of different functions and also
在每個向度的立面	create the different appearances.
藉由不同的虛實手法處理	
隱藏了不同機能的門	
也營造出不同的立面表情	We hope to make the public space as complete and square as possible.
希望讓公共空間盡量完整方正	The sofa with some arc design is chosen to be placed in the center to add some
中間的沙發也選擇帶一點弧面造型	softness to the square and clear-cut plane.
讓方正俐落的平面多一些柔軟
